EMPLOYMENT

The Software Institute - ATOS   Telford, United Kingdom
Test Analyst   May 2022 - Feb 2023

- Managing databases in UNIX

- Importing and exporting databases through each stage of testing when required.

- Use Tivoli Work Scheduler (TWS) an application that we use to run batches to mature data, run complex series of batches to create test data

- Maintain a spread sheet for the various user details we required to access the UNIX test environments we used

- Also created a REST API , collecting information from database hosted on cloud (Azure) server while also carrying out CRUD functions on the data and displaying it on a react front-end website. [https://github.com/greggbaker/SpringBootJavaMicroservice]

BMG Research   Birmingham, United Kingdom
Market Research Specialist   Jan 2020 - Jan 2021

- Market Research Specialist where I contacted company owners to help a company market its products or services.

EDUCATION

Aston University   Birmingham, United Kingdom
MSc Computer Science   Sep 2020 - Feb 2022

Coventry University   Coventry, United Kingdom
BSc Honours Medical and Pharmacological Sciences, Coventry   Sep 2016 - Jun 2019

PROJECTS

Eden Project *HTML, CSS, JavaScript*
Developed an environmental website that would contain information regarding waste management in local environment while providing informative links to external environmental bodies that deal with waste management in the UK. Utilised Google Map API with reverse geolocation to locate users position then submit the location they found the environmental concern e.g. waste or land degradation.

Mobile Card Game *Android Studio (Java), Firebase*
Developed a card game App loosely based off Blackjack with online multiplayer features using Android Studio with Firebase as a database storage device.

Online Recipe Blog *Bootstrap, Laravel, JavaScript*
Developed a website blog that would store popular cooking recipes. Using PHP Laravel to migrate information submitted on the website. The front-end is designed using bootstrap and JavaScript.
